

Squirrel-Be-Gone®

Model #336

Filling Instructions:

1. Press down on outer cage and lift up the lid.
2. Fill with seed.
3. Slide lid back over seed tube.

Disassembly and cleaning instructions:

1. Remove lid.
2. Clean with a mild soap and water solution.

To Adjust Spring Action:

To increase weight required to activate system, simply hook the spring wire into one of the lower holes.

IMPORTANT: To properly function, all springs should be adjusted to the same setting.

TIP: Adjust the springs in single increments each time-until you see no squirrels feeding.
